

MINUTES OF THE PUBLIC WORKS COMMITTEE MEETING – AUGUST 11, 2015

Call to Order: Chairman Bob Knueppel called the meeting to order at 7:00 p.m. at the Entrance Gate to Berlon Industries at 331 Riverview Road

Trustees Present: Bob Knueppel, Mike Grant, and Ted Engelbart

Others Present: Dennis Uecker, Dennis Hundt, and Steve Griep

Discuss/Approve Minutes from 3/31/15 Committee Meeting:

Dennis Uecker motioned to approve the minutes as presented, seconded by Ted. Motion carried.

Meet with Steve Griep of Berlon Industries to Discuss Road Drainage Issues at Property Entrance:

Steve explained the drainage problem at their entrance. The culvert under the road that drains from the northeast ditch at the corner of Riverview road drains very slowly and the water runs over the road in heavy rains. The road at that corner all slopes towards their driveway entrance so the rain water runs into their lot. Steve said they have a drainage issue within their lot also and everything drains towards the building. They are hoping we can do something at the entrance to catch the water coming off the road and direct it toward the river. Steve said they will allow us to do work on their side of the entrance gate on their property if needed. After some discussion we have a couple options:

1. Install a concrete drain with grate across the entrance to catch the water and drain it towards the existing riprap drainage area to the southeast.
2. Rebuild the driveway entrance to slope it towards the existing riprap drainage area to the southeast.

Dennis Hundt will get a quote from Dan Bamke to install the concrete drain and from Mi-De or General Asphalt to rebuild the driveway entrance. We will get back to Steve at Berlon with those quotes to make sure they are okay with our solution. We will most likely include this project in next year's budget.

ADJOURN

With no further business Ted made a motion to adjourn, seconded by Mike. The motion carried.

Minutes submitted by Bob Knueppel, Public Works Chairman
