Home Composting Class

GET INFORMED! Attend this class on April 14 at Hustisford High School from 6-7:30. This is a FREE class! Register at ce@hustisford.k12.wi.us or call 920-349-8109 ext. 239

Composting is a gardening task that causes unnecessary angst. It is actually a simple process occurring every day in nature. With a few simple pointers, every gardener can have a successful compost pile. Attend this meeting and find out the history behind composting, how composting benefits the environment, what is needed to set up a successful compost pile, how to manage it, and what materials to use or what to avoid and how to use the finished compost.

With the methods described, every gardener can be a successful composter.

All About Rain Barrels

Rain Barrels are an old idea that has gained popularity in recent years. As the old adage states, "You don't know the value of water until the well runs dry." Using a rain barrel conserves resources, saves money, helps direct water away from the foundation of your home, and is better for the environment. Come learn the history of the use of rain barrels, how to set up a rain barrel, and how to effectively use the water in the home landscape.

Carol Shirk is currently serving as the Dodge County Master Gardener Association president; and will be the instructor for this class.

This is a **FREE** class on May 17 at Hustisford High School from 6:00-7:00. Rain Barrels will be available to purchase or order. To register contact ce@hustisford.k12.wi.us or call 920-349-8109 ext. 239

Seed Bombs

Join us for a unique FREE class with a creative idea for your yard. May 3 at Hustisford High School from 6:00-7:00.

Seed bombs are a fun and easy way to garden – just throw them in a bare spot in your garden or lawn, and nature will take over. Have fun getting our hands dirty making seed bombs, a mixture of compost, clay, and seeds to take home and “plant”. To register contact ce@hustisford.k12.wi.us or call 920-349-8109 ext. 239.
